

KALAMO

KALAMO is a Greek DJ-Producer who first came to prominence in 2021. His style varies from charming electronica, shrouded with surreal melodic sound textures, to more afro-oriented sounds. He draws inspiration from a wide range of music, his main influence being Hans Zimmer.

His ability to control the crowd when combining different genre of electronic and house music creates an infectious rapturous atmosphere when he plays. The combination of his ethereal melodic sounds and the energy is what makes every soul feel alive on the dance floor.

Where there is a solid and strong spiritual strength and vivid interest behind the artist's mind to bring originality to music, uniqueness manifests itself as a result.

Having cemented himself firmly in the London music scene, his sets and productions can be heard in New York, Miami, Los Angeles, Mykonos, across Europe all the way to Tel Aviv and Dubai.

After having his own night at LIO, Mykonos and touring the South of France and Europe the upcoming year is very promising.
